Another feather in Dr Arijit Das's cap

Times News

Agartala, Dec 25: Tripura's world famous chemical scientist and teacher Dr Arijit Das has been showered with another big recognition with the conversion of his methods into an educational tool in the USA. Dr Das had invented 19 new methodologies and 39 new formulae to facilitate easier and most accurate study of chemistry for students and had earned world-wide recognition and tributes. Dr Das's methodologies and formulae have actually improved upon methodologies and formulae devised by nobel prize winners in chemistry.

Another feather

From Page 01

It was on December 20 this year Dr Edel Garcia, a multidisciplinary scientist and administrator-owner of 'minerazzi.com', Bayamon, Puerto Rico, US (www.minerazzi.com), now defunct Microsoft Innovation Centre, launched an educational tool 'Bond Order Calculator', based on four of 39 formulae of Dr Arijit Das. Announcing this Garcia said that this tool computes bond orders of diatomic species having up to 20 electrons without using Molecular Orbital Theory.

This is available at <http://www.minerazzi.com/tools/bond-order/calculator.php>.
