## Dr Arijit Das's book on Mnemonics published by Cambridge Scholar publishing in England

By Our Correspondent

Agartala November 12,2019 : Tripura's world-renowned chemistry scholar **Dr Arijit Das** has added another shining feather to his already swollen cap: his academic book titled '**Innovative Mnemonics in Chemical education, (a handbook for class room lectures)**' has recently been published by England-based reputed publishers 'Cambridge Scholars Publishing', originated from the Cambridge University. This is the first time such a book on Mnemonics has been published by Cambridge Scholars publishing and no other scholar from the northeast has had this achievement so far.

The book, available in '**Google Books**', '**Amazon**', '**British Library**', **London** and '**National Library**', **Kolkata deals with limitation of conventional methods and has solved them in innovative ways.** Besides, all new 19 innovative teaching methodologies and 39 formulae as well as innovative learning techniques in chemistry invented by **Dr.Das** over the past decade have been dwelt at length in this book.

Speaking to **tripurainfo.com** **Dr. Arijit Das said** that the book was ceremonially published on November 1 while the online edition had already been launched on September 11. The methodologies and formulae innovated by **Dr. Das** have already been registered by the **copyright office, Govt. of India**, New Delhi as his intellectual property on August 7 2018. He said that his main source of satisfaction is that the students of chemistry will benefit from a study of his methodologies and formulae mentioned in detail in his book in a time economic manner.
